

EAP Counselor

Job Description

Perspectives, a leading Employee Assistance Program (EAP) Service Company in Chicago has an excellent opportunity for a part-time EAP Counselor position (16 hours per week) for our location near Oak Park.

The EAP Counselor is responsible for assisting clients (young adult students in a rigorous graduate program) with whatever needs they present. The primary means for providing clinical services is through assessment and providing referrals. Additionally, the counselor provides additional short-term problem resolution counseling. The counselor also provides monitoring and follow-up of clients when indicated and follow-up with the organization when the client was referred formally.

This position, reports to the Clinical Director.

Responsibilities and Duties

- Provide thorough and accurate psychosocial assessments, including for substance use disorders.
- Provide short-term counseling, when indicated.
- Provide follow through and communication with organizations, referral sources and clients-active case management.

Qualifications and Skills

The ideal candidate for this position has a Master's Degree in Clinical Social Work or other Mental Health related discipline. The candidate would have an interest and experience in working with young adult students in rigorous graduate programs. The candidate is currently licensed in Illinois, or working toward LCSW or LCPC. Candidates with a strong background in the treatment of substance use disorders are preferred *Independent license to practice is a plus.
